

Acer Chromebook
Plus Enterprise 515:

POWER TO GET MORE DONE

You don't have to compromise. If you're looking for devices that are easy to secure and manage, and that your end users will absolutely love, look no further than the Acer Chromebook Plus Enterprise 515.

With the Acer Chromebook Plus Enterprise 515, you're going to get a laptop that's easy to deploy, manage, and secure, and that's packed with user-friendly features that make it incredibly intuitive and easy-to-use.

The Acer Chromebook Plus Enterprise 515 offers a new tier of Chromebook performance, emphasizing better hardware design with an upgraded display and camera, and paired with new AI-driven multimedia capabilities. Powered by modern high-performance processors, this machine gives your end users everything they need to stay connected and maximize their productivity in a variety of work environments, be it at the office, out in the field, or on the road.

The Acer Chromebook Plus Enterprise 515 offers a new tier of Chromebook performance, emphasizing better hardware design with an upgraded display and camera, and paired with new AI-driven multimedia capabilities.

A Premium Chromebook for Your End Users

The Acer Chromebook Plus Enterprise 515 offers premium Chromebook power. Because it's a Chromebook Plus, your users will get a 2x faster device with a more powerful processor and double the memory and storage.

The Acer Chromebook Plus Enterprise 515 features 13th Gen Intel® Core™ processors, offering efficient multi-tasking and up to 10 hours of usage on its fast-charging battery. A range of options are available, but you can configure them up to:

- Intel® Core™ i7-1355U processor
- 16GB of onboard dual-channel LPDDR5X SDRAM system memory
- 512GB PCIe Gen4 NVMe storage

Acer has architected the Acer Chromebook Plus Enterprise 515 with future-proof features. This device sports a FHD 1080p webcam with Temporal Noise Reduction, a FHD Acer ComfyView™ LED-backlit 15.6-inch display, and an ultra-slim design. Its first-rate visuals are complemented by dual upward-firing speakers with DTS® Audio.

And there's more! Other user-first features include:

- Intel® UHD or Iris® Xe Graphics
- Optional touchscreen
- Micro-speaker distortion prevention
- 2 USB 3.2 Gen 1 Type-C™ ports
- 1 USB 3.2 Gen 1 Type-A port
- 1 HDMI® 1.4 port
- Webcam shutter
- Wi-Fi 6E
- Bluetooth® 5.1
- Lightweight at only 3.7 pounds

Collaborating and conferencing is smooth and easy since the display features an anti-glare coating that keeps images and text crisp and clear in brightly lit environments, as well as IPS technology that results in wide viewing angles. Plus, the display is available with either a touch or non-touch screen option.

AI-driven editing capabilities can also be found in the Magic Eraser feature in the built-in Google Photos app, which easily removes unwanted distractions in your photos.

Creativity and Communication with an AI Boost

In the modern workforce, everyone is hands-on. With the Acer Chromebook Plus Enterprise 515, you'll be able to empower your users with the advanced capabilities they need to get things done and express their creativity with ease. Editing photos and creating standout graphics has never been easier on a Chromebook thanks to Firefly-powered generative AI features and the precision of Photoshop.

AI-driven editing capabilities can also be found in the Magic Eraser feature in the built-in Google Photos app, which easily removes unwanted distractions in your photos. And if your users need to edit videos? Built-in AI-driven tools will help them make advanced video edits with just a few clicks.

And that's not all. AI also helps improve the video conferencing experience of these machines. The Acer Chromebook Plus Enterprise 515 offers AI-powered capabilities that automatically enhance clarity and lighting, cancel noise, and blur backgrounds so that your users will always look and sound their best, no matter what conferencing app they're using.

Ruggedized for All Environments

The Acer Chromebook Plus Enterprise 515 is built to last. It has passed MIL-STD-810H military-grade testing—proof that it can stand up to the toughest tests for mechanical and vibration shock, as well as environmental threats like dirt, dust, humidity, and temperature fluctuations. These machines also feature spill-resistant keyboards and a moisture-resistant, eco-friendly OceanGlass™ touchpad, meaning they'll hold up in the most demanding environments, from busy offices to work on the road.

And what if your end user needs to work from a place without internet connection? No problem! When Acer Chromebook Plus Enterprise 515 users are away offline, the device's File Sync feature will make sure they can always access Google Docs, Sheets, and Slides via the Chromebook Plus File Manager.

ChromeOS: Ease of Management, Security, and Deployment for Business

When purchasing the Acer Chromebook Plus Enterprise 515 with Chrome Enterprise Upgrade, you're going to get a package of tools that make it exceptionally easy to configure, deploy, secure, and manage your new devices across your workforce, as these laptops are designed for quick deployment with multi-layered security.

IT administrators can easily manage hundreds or thousands of Chromebook devices through the Google Admin console and leverage Chrome Enterprise Upgrade's functional features, such as zero-touch enrollment. With zero-touch enrollment, you can have your Chromebooks ship pre-configured and ready for use immediately upon arrival, whether administrators are opening the devices for the first time or your end user is. The zero-touch enrollment process is easy: Just follow a few simple steps to set up your configurations via pre-provisioned tokens. From there, you can ship your Acer Chromebook Plus Enterprise 515 laptops directly to the end user at a moment's notice, assured that the machines will arrive configured exactly as desired.

With multi-layered security and no reported ransomware attacks on ChromeOS (ever!), The Acer Chromebook Plus Enterprise 515 is

How zero-touch enrollment works:

IT administrators can easily manage hundreds or thousands of Chromebook devices through the Google Admin console and leverage Chrome Enterprise Upgrade's functional features, such as 24/7 Google support and zero-touch enrollment.

designed to keep your enterprise and user data private and secure without having to install antivirus software.

The Acer Chromebook Plus Enterprise 515 with Chrome Enterprise Upgrade comes with the built-in business capabilities of ChromeOS: cloud-based management, advanced security, granular controls—plus 24/7 Google support! You'll get 10 years of automatic updates, meaning your devices will stay secure longer. No more driver updates, either, even for your peripherals, as automatic updates cover those, too.

Don't forget ROI: Recent studies show that Chromebook Plus machines offer an average ROI of 245% over three years, with \$463 average cost savings per device and \$3,901 three-year total savings per ChromeOS device.

Do More Than You Thought You Could

You need secure devices that are easy to deploy and manage. Your users need machines that are powerful and easy to use. Your organization needs ROI. Why not have it all? You truly don't have to compromise with the Acer Chromebook Plus Enterprise 515.
