

Your next AI-driven
Chromebook for
business:

INTRODUCING THE ACER CHROMEBOOK PLUS ENTERPRISE SPIN 714

This 2-in-1 convertible Chromebook is the embodiment of power and portability, perfect for your on-the-go modern workforce.

AS AN IT LEADER looking to purchase a new fleet of mobile devices, you're tasked with making impactful, cost-effective purchases today that are ready for all the challenges and opportunities tomorrow will bring.

To start, you need to take care of your modern workforce that demands portability and power and often requires unfettered flexibility.

Your IT team needs a fleet of laptops that are secure, long-lasting, and easy to manage.

Your executives expect you to do it all with less: acquiring devices that respect the bottom line, empower a mobile workforce, and fully embrace your company's AI future.

You'll ensure your users can connect with ease wherever they are thanks to ultra-fast Wi-Fi 7 and stay secure with the built-in fingerprint reader.

Acer understands the demands of this choice. That's why we've created the Acer Chromebook Plus Enterprise Spin 714.

A Light and Modern 2-in-1

The Acer Chromebook Plus Enterprise Spin 714 with stylus support is a premium, thin, and light (3.21 lbs.) 2-in-1 convertible device that's designed for work in the office or on-the-go.

It offers a stunning 14" WUXGA (1920 x 1200) Antimicrobial Corning® Gorilla® Glass touchscreen, featuring an expanded 16:10 narrow bezel display and a wide viewing angle of up to 170 degrees.

You'll ensure your users can connect with ease wherever they are thanks to ultra-fast Wi-Fi 7 and stay secure with the built-in fingerprint reader.

Best of all, your workforce will be able to lift, flip, and spin the unit 360 degrees, configuring the device to facilitate new levels of productivity.

The Acer Chromebook Plus Enterprise Spin 714's stylus isn't just a writing instrument – it's a sophisticated tool designed for the modern professional. Whether you're sketching ideas, taking notes, or annotating documents, experience the likeness of a pen on paper. The stylus is pressure-sensitive, offers up to 4 hours per charge, and docks and charges in the built-in stylus garage.

AI-Powered Processing with Intel® Core™ Ultra

Powered by Intel® Core™ Ultra Series 1 processors, the Acer Chromebook Plus Enterprise Spin 714 offers more than just a performance score; it's advancing real-world computing and delivering efficient multi-tasking, along with other benefits like increased performance and maximized battery life.

With Intel® AI Boost, the integrated neural processing unit (NPU) handles sustained AI workloads at low power for greater efficiency. The built-in graphics processing unit is ideal for large workloads that require parallel throughput, and you can rely on the central processor for smaller workloads

And there's even more AI built into every Acer Chromebook Plus Enterprise Spin 714. For example, DTS® Audio provides post-processing enhancements and device level tuning for audio drivers, offering unrivaled clarity and immersive soundscapes.

at low latency. This hybrid architecture is available whether you pick an Intel® Core™ Ultra 7 Processor or Intel® Core™ Ultra 5 processor for your units.

As for the battery, you're getting a fast-charging Lithium-Ion battery that can last up to 10 hours – perfect for even your most-demanding road warriors.

AI-Driven Productivity & Connectivity

With 2X the power, speed, memory, and storage of other devices¹, the Acer Chromebook Plus Enterprise Spin 714 empowers your employees to do their best work – whether they're in the office, remote, or anywhere in between.

Thanks to ChromeOS and Gemini, you're getting the best of Google AI in every device, delivering proven productivity improvements and enhanced collaboration tools that work out of the box. Some of the many benefits include:

- **Adaptive charging:** Use AI to predict device usage patterns and help preserve battery health.
- **Help me write:** Easily refine text on any website or in any application.²
- **Help me read:** Summarize any website or PDF with just a click.²
- **Screencast:** Users can quickly record, edit, and share a video, with automated captions and translation in 12 different languages.
- **Google task:** A built-in shortcut to Google tasks lets users add or check off to-dos without opening another tab. ²
- **Focus:** With focus mode enabled, the user's to-do list and Google Calendar work together for a distraction-free work mode. ²
- **File Sync:** Automatically sync files to File Manager, so Google Docs, Sheets, and Slides are always accessible—even when offline.
- **Enhanced video call controls:** Automatically enhance clarity and lighting, cancel noise, and blur backgrounds.
- **Generative wallpapers and video call backgrounds:** Team members can show up how they want across any video conferencing application and generate a custom wallpaper background for a personalized experience.

And there's even more AI built into every Acer Chromebook Plus Enterprise Spin 714. For example, DTS® Audio provides post-processing enhancements and device level tuning for audio drivers, offering unrivaled clarity and immersive soundscapes.

This Chromebook's microphones have automatic AI-powered noise-cancellation technology built-in. It also comes with a QHD webcam featuring a blue-glass lens and the AI-driven Acer TNR solution, which can capture better

Chromebooks have zero reported ransomware attacks and 24 percent fewer security attacks overall than other devices, resulting in a 29 percent efficiency gain for IT security teams.

images by detecting and diagnosing noisy pixels and blend them into other frames over time, producing improved quality images in low-light conditions. For added security and convenience, employees can take advantage of the built-in privacy shutter, mute their mic, and turn off the camera with one click.

The Acer Chromebook Plus Enterprise Spin 714 truly is empowered for the AI future.

Tough Enough for All Environments

Like all Acer notebooks, the Acer Chromebook Plus Enterprise Spin 714 is built to last: It's passed MIL-STD 810H military-grade testing, standing up to the toughest tests for mechanical and vibration shock as well as environmental threats like dirt, dust, humidity, and temperature fluctuations.

These devices also feature Antimicrobial Corning® Gorilla® Glass displays and spill-resistant keyboards, meaning they'll hold up even in the most demanding environments.

Best-In-Class Security That's Built-In, Not Bolted On

ChromeOS is a secure-by-design OS that protects your people from security breaches and your bottom-line profitability from costly attacks.

Chromebooks have zero reported ransomware attacks and 24 percent fewer security attacks overall than other devices, resulting in a 29 percent efficiency gain for IT security teams³.

Get the most secure OS out of the box for your organization and improve your ROI with ChromeOS.

Ease of Management and Deployment for Business

Offered as an option for all Acer Chromebook Plus Enterprise Spin 714 devices, Chrome Enterprise Upgrade is a package of tools that make it exceptionally easy to configure, deploy, secure, and manage your new devices across your workforce.

With Chrome Enterprise Upgrade, IT administrators can easily manage hundreds to thousands of Chromebook devices thanks to zero-touch enrollment. With zero-touch enrollment, you can have your Chromebooks ship pre-configured and ready for use immediately upon arrival, whether administrators are opening the devices for the first time or your end user is. The zero-touch enrollment process is easy: Just follow a few simple steps to set up your configurations via pre-provisioned tokens. From there, you can ship your Acer Chromebook Plus Enterprise Spin 714 laptops directly to the end user at a moment's notice, assured that the machines will arrive configured exactly as desired.

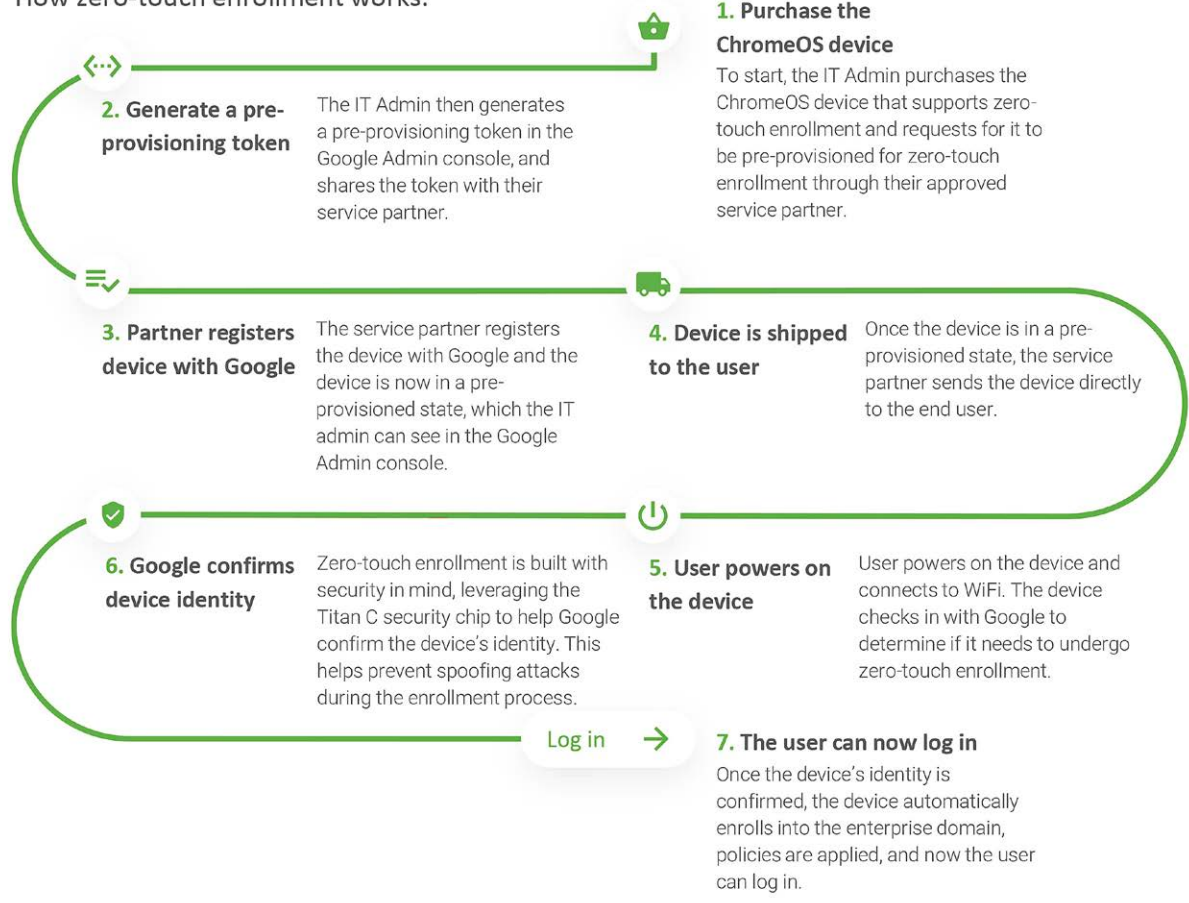

The Acer Chromebook Plus Enterprise Spin 714 with Chrome Enterprise Upgrade offers your organization the built-in business capabilities of ChromeOS: cloud-based management, advanced security, granular controls—plus 24/7 Google support! You'll get 10 years of automatic updates, meaning your devices will stay secure longer. No more driver updates, either, even for your peripherals, as automatic updates cover those, too.

Don't forget ROI: Recent studies⁴ show that Chromebook Plus devices offer an average ROI of 245% over three years, with \$463 average cost savings per device and \$3,901 three-year total savings per ChromeOS device.

You Can Do It All with this AI-Driven Chromebook

You need power, performance, flexibility, and ROI, and that's exactly what these Chromebooks offer – all in a sleek, light, beautiful, and thoughtfully engineered package. Give your organization an AI-powered productivity boost that's future-proof and sure to please your end users, your team, and your bottom line with the Acer Chromebook Plus Enterprise Spin 714.
