Absolute MSP Partner Program

Strengthen Your MSP Business with Self-Healing Security

Differentiate your MSP business with the industry's only firmware-embedded, self-healing security platform. Absolute helps you enhance your service offerings, improve operational efficiency, and drive recurring revenue—without adding complexity. With automated remediation, persistent endpoint visibility, and secure remote access, Absolute empowers you to deliver continuous security and compliance while reducing IT overhead.

Why partner with Absolute?

- **Increased revenue & customer retention:** Expand your managed security portfolio, drive monthly recurring revenue (MRR), and improve client stickiness by offering resilient security services.
- **A competitive edge in a crowded market:** Provide self-healing security solutions that differentiate your services from competitors offering traditional endpoint management.
- **Unbreakable endpoint control:** Embedded in the firmware of leading device manufacturers, Absolute remains operational even if security agents are disabled or removed.
- **Operational efficiency & automation:** Reduce IT workload with automated remediation, persistent security enforcement, and seamless integration into existing IT workflows
- **Proactive security & compliance:** Automate policy enforcement, continuously monitor endpoint risks, and reduce downtime with self-healing cybersecurity applications.

Absolute Security Service Provider Plans

Absolute Visibility

Source of truth for device and application health.

What's Included

- Device Health
- Security Posture
- Device Usage
- Geolocation
- Web Application Usage
- Endpoint Data Discovery

Absolute Control

Lifeline to protect at-risk devices and data.

All Visibility capabilities, plus

- Geofencing
- Device Freeze
- File Delete
- Device Wipe
- End User Messaging
- Remote Firmware Protection

Absolute Resilience

Delivers application self-healing and endpoint recovery from unexpected downtime.

All Control capabilities, plus

- Application Health
- Application Resilience
- Remediation Script Library
- Investigations and Recovery of Lost/ Stolen Devices
- Rehydrate

Absolute Resilience for Security

Seamless and proactive patch management.

All Resilience capabilities, plus

- Patch Management
- Third-Party Application Patching
- Patch Compliance Reporting

MOST POWERFUL

Absolute Resilience for Automation

Remediation of security vulnerabilities through automated workflows.

All Resilience for Security capabilities, plus

- Vulnerability Remediation
- Continuous Monitoring
- Intelligent Automation and Workflows

Maintain device health

- Full visibility and management of devices across all environments—on or off the corporate network.
- Geolocate, track, and freeze lost or stolen devices to prevent data exposure.
- Cloud-based administration for streamlined, centralized security operations.

Secure compromised devices

- Track, lock, or wipe devices anywhere, even when offline.
- Identify and protect sensitive data (e.g., PII, corporate IP) to mitigate data breaches.
- Reclaim stolen devices and prevent unauthorized access.

Strengthen security posture

- Self-heal critical security applications, patch and detect vulnerabilities in real-time, and automate remediation with no-code workflows.
- Zero-trust, policy-driven secure connectivity with Absolute Secure Access, ensuring uninterrupted and adaptive connections for remote users.
- Prebuilt security enforcement policies and audit-ready reporting to align with NIST, HIPAA, PCI DSS, and other regulatory requirements.

Flexible, Consumption-Based Billing

No Upfront Costs

Pay only for active licenses each month.

Tenant Level Management

Easily track and manage multiple customer deployments.

Predictable Pricing

Transparent, usage-based billing model to align with your business growth.

How to Get Started

1. **Apply Today** – Sign up via Absolute's Partner Portal.
2. **Activate Your Account** – Choose the transaction model that aligns with your business capabilities and complete the onboarding process.
3. **Deploy & Manage** – Start protecting endpoints with **Absolute's automated, self-healing security**.
