acer for business

Built-in Google AI for your business with Chromebook Plus

Chromebook Plus is powerful, affordable, and helps your team do more with Google AI built in.

Tools to enhance team productivity

With **2X** the power, speed, memory, and storage, and built-in AI features to enhance creativity and collaboration, your team is empowered to do their best work.*

Work effectively, online or offline

No Wi-Fi, no problem with **File Sync**. Available with Chromebook Plus, File Sync **automatically syncs** files to File Manager, so Google Docs, Sheets, and Slides are always accessible—**even when offline.**

Get more done with less cost

With devices that have a **245% ROI** over three years and are lightweight, portable, and secure—with long battery life—your people can work from anywhere and you could **reduce your total cost of ownership**.[1]

Built-in, not bolted-on, security

With devices that have never had a virus and **ZERO reported ransomware attacks**, your data is secure.** ChromeOS devices have **24%** fewer security attacks and a **29%** efficiency gain for IT security teams.[1] In fact, ChromeOS is the most secure OS out of the box when contrasted with macOS and Windows 11.[2]

Chromebook Plus improves productivity and team collaboration with Google AI

Help me be more productive

Help me read

Gemini

Help me write: Easily refine text on any website or application.

Help me read: Summarize any website or PDF with just a click.

Focus: With focus mode enabled, your to-do list and Google Calendar work together to find time for you to work without distractions.

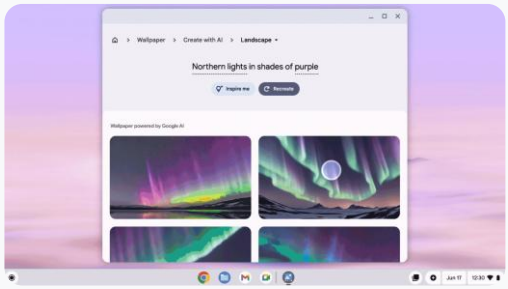

Welcome recap: Prompt on login to reopen relevant content, such as windows and apps used before logging out.

Gemini: Add Gemini to your Workspace plan and IT admins can pin Gemini to the Chromebook shelf for quick access.

Help me create & collaborate

Live Translate

Generative AI backgrounds

Live Translate: Enable Google AI-translated captions on any meeting platform, live streams, and .mp4 files.

GIF Recording: Use built-in screen capture to quickly save screen recordings in GIF format.

Screencast: Quickly record, edit, and share a video, with automated captions and translation in 12 different languages.

Generative wallpapers and video call backgrounds: Personalize backgrounds across any video conferencing application and your desktop wallpaper.

Enhanced video call controls: Automatically enhance clarity and lighting, cancel noise, and blur backgrounds.

Gemini Enterprise

The best of Google AI for every employee, every workflow

AI is changing how we interact with the world

How we search | How we create | How we write | How we learn

At work, our capabilities are limited by siloed applications that do single tasks

The average company interacts with

254

distinct AI applications[1]

Gemini Enterprise empowers teams to discover, create, share, and run AI Agents all in one secure platform

The Brains

Immediate access to Google's most advanced Gemini models

The Workbench

Gemini chat platform with tools for all employees to build, orchestrate, & use agents

The Taskforce

A suite of specialized, Google-built & third-party agents from research to coding

The Context

All grounded in the reality of your own systems and data, wherever they live

and many more…

The Governance: A central place to visualize, secure, and audit all your agents

1. Harmonic Security

Gemini Enterprise

Where employees can trade busy work for breakthroughs

Work smarter with agents:

Agents automatically accelerate your workflows, offering accurate, action-oriented responses by co-authoring documents and connecting directly to core business systems—all without writing a single line of code

Transform text into art with multimodality:

Break creative blocks by quickly generating localized marketing campaigns and high-quality social content, transforming text into art with simple prompts

Condense hours of research into seconds:

Get presentation-ready instantly by consolidating and summarizing scattered data, while minimizing launch risk through fast analysis of competitive offerings and nuanced customer pain points

Access built-in coding capabilities:

Enable faster coding with fewer errors, reduce technical debt via easier refactoring of legacy code, and minimize risk with enhanced, automated QA processes

Deploy and manage your entire AI agent taskforce with enterprise-grade security, centralized control, & trust baked in from day one

Enterprise-grade foundation

Build on the same secure platform that protects Google Cloud, ensuring immediate trust and compliance.

Advanced agent protection

Secure every agent interaction with built-in, AI-specific guardrails that span multi-agent systems.

Centralized governance

Gain complete visibility and control over all agents from a single dashboard.

How Gemini Enterprise stands apart

- Google's most advanced multimodal AI
- Premiere access to Google's top-tier models as they launch
- Google's industry-leading search
- Comprehensive and open agentic ecosystem
- Single location for enterprise-grade security & agent governance
